REACT Counter

App.js Code:

```
import React, { useState } from "react";
import "./App.css";

function getFavicon() {
  return document.getElementById("favicon");
}

const App = () => {
  const [count, setcount] = useState(0)
  const [count2, setcount2] = useState(0)
  const favicon = getFavicon();

  const Increment = () => {

    if(count > 8)
    {
      favicon.href = "red.ico";
    }
    else{
      setcount(count + 1)
      favicon.href = "gr.ico";
    }
  }

  const Decrement = () => {
    if(count < 1)
    {
      favicon.href = "red.ico";
    }
    else
    {
      setcount(count - 1)
      favicon.href = "gr.ico";
    }
  }
}
```

```
const Reset = () => {
  setcount(0);
  favicon.href = "favicon.ico";

}

return (
  <div style={{
    display: 'flex',
    flexDirection: 'column',
    alignItems: 'center',
    justifyContent: 'center',
    fontSize: '300%',
    position: 'absolute',
    width: '100%',
    height: '100%',
    top: '-15%',
  }}>
